

# *The Alzheimer's River*

*Author – Bob Savage*

Bob Savage attached the poem to his painting in the lower right-hand corner.

The painting is called “The Alzheimer’s Rivers” which Bob Savage named after the dirty water which represents the plaques and tangles. The clear blue water represents the new white cells which are positive things people can make in their lives.

## **“The Alzheimer’s River”**

We now have our plaques and tangles  
Been growing for years and years  
Now fighting those plaques and tangles  
By enjoying our life as never before  
We love our family, Friends, Poetry, Music  
Art, creativity, nature and much more

All this to keep ahead of those plaques and tangles  
Our new cells will out wit those of P’s and T’s  
The will, we know they will  
Yes, oh Yes  
A huh, A huh  
Oh yes
